PROFILE

Results-driven UI/UX Designer and Software Engineer with 3+ years of experience crafting responsive, user-centered digital products. Skilled in translating business goals into intuitive interfaces — from wireframes and prototypes to polished dashboards, landing pages, and full front-end builds. Comfortable working independently or embedded within a design team, with a strong eye for detail and a habit of staying current with design and development trends.

SELECTED WORK

Full case studies on Behance — [behance.net/MaishaFarzanaTaki](https://www.behance.net/MaishaFarzanaTaki)

- EdTech Website** End-to-end web design for an EdTech platform — from user flows to a clean, responsive interface built to make learning feel effortless.
- Time Management Dashboard Design** A dashboard design focused on helping users plan, track, and visualize how they spend their time — clarity-first data visualization.
- Project Management Dashboard** A dashboard interface built to help teams plan sprints, track progress, and stay aligned — designed for clarity at a glance.
- Social Media Dashboard Design** An analytics dashboard for tracking social media performance across platforms, designed for quick, actionable insights.
